SOURCE AND AUTHORIZATION CHECKS

CHECK	FIXTURE RESPONSE	REQUIRED HUMAN ACTION
Source pages present	Pages 1 and 2	Compare each exported value with the complete source form.
Administrative-use attestation	Synthetic yes	In real use, confirm the uploader is authorized and follow the organization's access and retention rules.
Unclear or missing fields	None asserted	Leave uncertain values blank or flag them; never infer a clinical fact.

DECISION BOUNDARY

Extraction may organize printed or self-reported fields into an administrative review queue. Authorized staff remain responsible for source verification, access control, retention, clinical workflow and every medical or eligibility decision.
